REVIVE OUR OCEANS

BESPOKE OUTERWEAR COLLECTION

Our oceans are in desperate need of our help.

With over 500 billion plastic bottles produced each year and a truck full of waste entering our oceans every single minute, our oceans are drowning in plastic.

The time to act is now.

Since founding OCEANR, our mission has always been to actively contribute to plastic-free oceans by supporting various cleanup projects around the world. Between 2018 and 2024, we've successfully funded the removal of 42,000 kilos of plastic

From 2025 we've decided to work with Plastic Fischer, to remove as much plastic as possible, starting with a commitment to remove 25 tons in 2025.

We've created a range of jackets customizable to your brand with an ambitious goal - collect an additional 25 tons of plastic with your help.

REVIVE OUR OCEANS

An underwater photograph showing a large amount of plastic waste, including a blue crate, tangled fishing nets, and other debris, floating in the water. The scene is set in a clear blue ocean with many small, striped fish swimming around the trash. The text "#25IN25MISSION" is overlaid in white, bold, sans-serif font across the center of the image.

STAND UP FOR OUR OCEANS IN CUSTOM JACKETS WITH A CAUSE

TO REMOVE AN ADDITIONAL 25 TONS
OF OCEAN WASTE IN 2025

We're inviting your brand to support the fight against plastic pollution
by purchasing personalized jackets with a positive impact.

**Each purchase in this campaign will remove 1 kg of plastic with the "25 in 25"
badge celebrating your contribution to clean rivers and oceans.**

Much more than a logo, we offer full customization options to meet your brand vision.

Made from recycled materials, enhance your brand image while contributing to
ocean conservation.
