

A photograph of three men standing in front of a modern building with a blue-tinted glass facade. The man on the left is a young man with dark hair and a beard, wearing a dark hoodie. The man in the center is a Black man with curly hair, wearing a white sweatshirt and a dark strap over his shoulder. The man on the right is an older man with grey hair and a beard, wearing a dark jacket. The image has a blue color overlay.

WHAT DRIVES OCEANR'S COMMITMENT

WE ARE OCEANR

Our **People**, Our **Products** and Our **Planet**.

100% FAIR WAGES

While most companies focus on the lowest price for their product - we sacrifice profit to ensure the best working conditions for our People.

RECYCLED & ORGANIC MATERIALS

We use certified materials across our range and make this accessible to brands who can't meet large MOQs.

TAKE BACK PROGRAMME

To tackle textile waste.

LIFE CYCLE ASSESSMENT

We run a full analysis across our product range, so you know the environmental impact of each garment.

CARBON OFFSET

We contribute to reforestation efforts by planting mangroves, helping restore ecosystems.

OCEAN PROTECTION

We actively support cleanup projects worldwide, working toward a future with plastic-free oceans.

OCEANR PRODUCTION TEAM - RIGA, LATVIA

TIMELINE

PHASE 1 4 WEEKS

ACQUISITION AND ON BOARDING

- Introduce OCEANR and share key materials (deck, samples, catalogue)
- Showcase capabilities and customisation options
- Receive project brief and letter of intent
- Share T&Cs and present initial design proposal - [Custom Proposal Example](#)
- Sales follow-up to confirm if the lead is moving forward
- If won, issue invoice and request downpaymentProject moves to Phase 2 once payment is received

PHASE 2 6 WEEKS

SOURCING AND DESIGN

- Final design proposal is confirmed by sales
- Development tracker and spec sheets are created
- Fabrics, trims, artworks, and packaging details are submitted
- Client sign-off meeting takes place
- Feedback is shared with production. Once approved, move to Phase 3

PHASE 3 4 - 6 WEEKS

QC / PRE PRODUCTION

- Production team prepares checklist and samples
- Factory orders bulk materials and confirms delivery timelines
- Quality checks are done on incoming materials
- Client confirms size sets and any final details
- Once everything is approved and received, production begins

PHASE 4 10-12 WEEKS

DELIVERY & FOLLOW-UP

- Final quality checks are done by a third party
- Invoice is issued before dispatch
- Factory finalises packing and confirms delivery schedule
- Order is shipped (DAP or DDP as per client)
- Follow-up and feedback requested two weeks after delivery

TRUE SUSTAINABILITY REQUIRES FULL TRANSPARENCY

**Designed to
Revive Our Oceans**

Plastic pollution is a major threat to our oceans. This jacket is part of the solution, made from recycled polyester. It gives new life to discarded plastic bottles that would otherwise end up in our oceans or landfill.

In 2025, our mission is to remove 25 tons of ocean waste.

Together, we have the power to make a positive impact.

SUBLIMATION

BRANDING OPTIONS

Sublimation

Perfect for polyester products. Full sublimation allows you to customise every inch of your product. You aren't limited by the number of colours or complexity of your design. For a vibrant, permanent colourfast finish.

Embroidery

Embroidery is the process by which a design is sewn onto a garment using a computerised sewing machine. Mainly for logos, they can be done for letters or as patches. Perfect for logos or simple artworks to be applied on shirts, caps, hats and hoodies.

Print

Logos and artworks can be printed on ready-made products with different methods such as heat transfer, direct to garment, DTF and others. The end result is a decorated garment. Recommended for organic cotton products such as t-shirts and hoodies.

"Our greatest impact will not be just what we do.
It will be how much we can influence individuals and organisations to take on that
sustainable journey and in turn, influence others to do the same"
